

THE Farmers Bank

Alternative Investments.....

The concept of alternative investments (neither stock nor bonds) has been embraced by increasingly more investors in recent years. These investments like all others have their advantages, diversification and potential for significant returns, and disadvantages, illiquidity, volatility, large initial investment, and cost. As they have become more popular some of the disadvantages have been reduced making them appropriate for some smaller investors. We would be pleased to discuss these with you considering your specific circumstances.

Call us and let's discuss.

Tamara S. Moss
