

PAX SP30

Integrated PINpad

The SP30 provides the smallest footprint with the largest user interface at 320px by 240px, color LCD to ensure perfect readability and better branding opportunities.

The SP30 offers a built-in contactless card reader, a magnetic card reader, and an NFC card reader. The PAX SP30 is compatible with the PAX S80 countertop terminal. It provides a small foot print, while managing to offer a large color display with its 2.4 inch color display.

Please contact me for more information!
